

FIELD TRIP PACKAGES

Engineering Field Trip

Explore Engineering in a fun and engaging environment. After learning a specific engineering concept, taught by our professional STEM educator, students will participate in a group challenge displaying their knowledge of the content and engaging in friendly competition with their classmates.

Current Offering: Energy in Motion

- Students learn about the dynamics of potential & kinetic energy
- As a team students test their knowledge and understanding by engaging in play
- Our educator checks for understanding and mastery of the concepts
- Students present their findings as a team to their class

Let's Celebrate Field Trip

Whether it's a trip for a specific group of students who have gone the extra mile or simply a day of play for an entire class Playgrounds is now primed and ready for ages 3-12.

- 3 story play structure that includes bridges, slides, swings & tunnels
- Full service kitchen & dining, lunch & snack packages available
- 35 piece child friendly arcade with packages available
- Redemption counter with prizes for ages 0-12
- Your favorite bounce houses
